Warehouses

In order to meet the needs of our customers, we have established our own network of bonded and non-bonded warehouses.

In bonded warehouses, goods can be stored for an unlimited period.

Our customers do not have to pay customs and tax duties for all of the goods in the warehouse but only for the goods they are selling.

Our customers can rest assured that all warehoused goods are completely safe from external interference.

We cooperate with a large number of warehousing companies throughout Poland.

We have around **10,000 m² of storage space** available in our own warehouses.

Security

We are an open company, and we take great effort to adapt to the needs of our customers.

In order to better address the needs of our customers, we offer CARGO insurance of goods transported to/from every place in the world. We also have insurance for the payment of tax and customs duties, with unlimited coverage — depending on the needs of our customers.

We are licensed to provide road transport in Poland and have every necessary license to transport all kinds of cargo. We can ensure complete security of transported goods.

In order to convince our customers of the quality of the services provided by ALLcom, we have implemented the ISO 9001:2008 Quality Management System and Double employed cargo system as well.

Security

The entrusted goods and contracted services are secured by the Freight Forwarder's Third Party Liability Insurance.

We have broadened our offer to include transport of strategic goods. We are also licensed to transport waste.

Consequently, ALLcom has implemented and certified the Internal Control System_for the trading of goods, allowing us to forward arms and dual-use goods.

We believe that these are the basic requirements for any company wishing to provide comprehensive freight forwarding.
